Project Title: AI based discourse for Banking Industry

Mentor Name: Mr.S.Vijayakumar

Team Members:

- M.Sneha (Team Leader)
- Shree Lakshmi R
- Swetha K
- Yuvanthika.S

WEEK 3(5-10th Sept 2022)

On 5th sept ,me and my team members created an account on “mural project presentation templates” website and started to learn about how to create a empathy canvas map.We created a empathy by map by reading some already existing research papers and understood about the user pains and gains through that process.

On 6th sept, we had training session in which they taught us about the basics of python and at the end of the session we attended a quiz in that session.

On 7th sept we started to prepare some problem statements for the project with the video they uploaded how to create a problem statements.

On 8th sept ,we had another training session through which they taught us in-depth concepts in python combined with panda,numpy etc and at the end of the session they posted an quiz which we have to complete within 15 minutes while the session is on going ,which we completed on time and they also gave us the link for an assignment which we have to complete before 13th sept which me and my team members uploaded individually in the given git-repository.
